

The 1st EU-China Tech Scale-Up Summit, Chengdu

date	May 17, 2018 - May 19, 2018
city	Chengdu, China
location	Chengdu, China 
organisation	Executive Agency for Small and Medium-sized Enterprises (EASME) ⁱ

The 1st EU-China Tech Scale-Up Summit will take place on 17-19 May 2018 in Chengdu, Sichuan province.

As we follow our values to support the most innovative and fast-scaling entrepreneurs, we asked ourselves “What is next”. Then we asked the International Venture Club and some of the best tech Scale-up companies in Europe “What is next?” and we got this answer - new high-potential markets.

With a population twice as the European and highly competitive regions striving for excellence and innovation, China is the fastest growing economy with multibillion-dollar companies taking the worldwide leading positions in their sector.

Tech Tour, together with EUPIC will build a bridge between Europe and China for already successful European companies ready to step into the Chinese Market and meet with Corporate partners interested in doing business with the EU Tech Scale-ups, VCs, Key players, and clusters.
