

Deep Tech Summit 2018: Showcasing the best investment opportunities within the digital industry in Europe

By **Kima Mayes** - September 3, 2018

Dates: October 9-10, 2018 | **Register** [here](#)

Prices: starting from EUR 1.100,-

Location: London, the United Kingdom

Deep Tech Summit 2018

Deep Tech Summit, an initiative of the Tech Tour and the International Venture Club will take place in early October 2018 in London and will focus on showcasing the best investment [opportunities](#) within the [digital industry in Europe](#).

The programme and pitches revolve around the following themes

- IP-based businesses
- Autonomous vehicles and robotics
- Self-learning/blockchain applications

Why attend?

The agenda will include presentations of 25 scale-ups and 5-10 outstanding emerging companies, discussion panels, keynotes and top-level networking including a networking dinner. These will represent the “who’s who” of the Deep Tech and Venture Capital market including:

- 25 of Europe’s most promising growth companies (scale-ups, not start-ups) nominated and selected from a list of 200 candidates from across the European Continent
- 50 to 70 of the most active specialised venture capital and private equity investors
- 30 to 50 corporate venturing or innovation leaders of large industrial organisations and technology corporation

Tech Tour Summits are widely celebrated for

- Industry-led content – each year volunteer Summit Presidents, together with the selection committee, lend their convening power to attract the top 5% entrepreneurs who will generate 95% of the returns
- CEO-only workshops on the first day led by industry experts from leading investment banks, law firms and management consultancy firms
- Investor-only Roundtable on the first day organised by the International Venture Club (Tech Tour’s investor club with 80+ VC and CVC members)
- Evening reception and dinner bringing the investors and scale-up CEOs together and facilitating relationship building
- Second day with scale-up pitches, and meetings between investors and entrepreneurs

Investor Roundtable Programme

During the first day of the Summit, investors and corporates are invited to join the Investor Roundtable Programme. The IVC Roundtable will promote corporate investment activity and will foster the start of new corporate venturing programs.

The link with the Deep Tech Summit provides interested corporates with a showcase of selected **opportunities**, as well as a chance to develop new relationships with leading investors.

The Roundtable will bring together innovation leaders of large technology corporations to discuss the latest trends in the 'Investment Trends', strategy and partnering models with the investors of the IVC.

Interested in attending the Deep Tech Summit 2018? Register your participation by following [the registration link](#) and taking the suggested steps.
