29 Sep 2017

Berlin, September 29th, 2017 – R3 Communications (R3 – Reliable Realtime Radio Communications GmbH) is one of the 25 companies presenting at the Tech Tour 2017 Deep Tech Summit on 17-18 October in London.

The agenda will include 25 deep tech growth company presentations by CEOs, discussion panels, keynotes and top level networking including a networking dinner of 200 guests on 17 October. These will represent the “who’s who” of the Deep Tech and Venture Capital market including:

- 25 of Europe’s most promising growth companies (scale ups, not start-ups) nominated and selected from a list of 200 candidates from across the European Continent
- 50 to 70 of the most active specialised venture capital and private equity investors
- 30 to 50 corporate venturing or innovation leaders of large industrial organisations and technology corporation

From R3 Communications’ side, Managing Director Florian Bonanati will be on stage presenting EchoRing™ and the plans for the technology in the upcoming months. “It is an honor for us to be selected by DTS as one of the 25 Europe’s most promising growth companies” says Florian. “Furthermore, presenting EchoRing™ in London to such important investors is a wonderful opportunity to shape EchoRing™’s future success”, he adds.
